

Upcoming Attractions

This is a support document for material on the Practical Small Cacti Malaysia site.

Stop Press!

The following are a few things that I am working on that may be useful to know. I have only preliminary observations or guesses, so I will write them up in the next edition.

- Daily spraying provides more nutrition to cacti and there are many positive effects.
- GBalds shrink better in slightly cramped pots with rocks to squeeze them.
- Younger GBalds may be more willing to have seed pods and not abort them.
- Apical dominance prevents short pieces of MGeo tops to put out roots.

Upcoming Material for the Next Edition

The release of the next edition is expected to be in December 2020. Here are some of the things planned for the next edition:

Oops.

Version Information

This is the June 2020 Edition of this document.

Author & Copyright

This work is licensed by **slime_mold_b** under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License.

Here is a human-readable summary of the license:

<https://creativecommons.org/licenses/by-nc-nd/4.0/>

Here is the actual legalese:

<https://creativecommons.org/licenses/by-nc-nd/4.0/legalcode>

Note that the CC license does not restrict your Fair Use rights. The key rules (Attribution-NonCommercial-NoDerivatives) is somewhat similar in spirit to the case where an out-of-print work is put on the Internet by an author who holds copyright over the material – it is meant to preserve the integrity of the work in its intended form. You can freely read it, print it out, criticize it, discuss it, etc. However, something like wholesale cut-and-paste of the text or extracting pictures and using it for your blog or for commercial purposes would be a violation of the license.

Colophon

Written on LibreOffice. Most images were produced using GIMP and IrfanView. PDF tested using SumatraPDF. Fonts used include Liberation Serif, Arimo and Liberation Mono. The document is sized for A4 or Letter printing with enough whitespace for comfortable reading.

All pictures used to produce the images in the document were taken by the author unless otherwise stated. Images are not meant to be of art print quality. The pictures were taken by unsteady hands without a tripod, then they are cut or resized and finally resampled to about 150 DPI and a JPEG quality of 80 for screen reading and also to keep file sizes manageable.
